

Introducing

VS 700 B

*All-in-one photobook binding system

Layflat.com
THE BINDING COMPANY

Versatile binding machine

Binding Machines for Duplex Prints

Description

VS 700 B is a one-of-its-kind user-friendly versatile machine which carries out all the basic processes involved in photobook binding i.e. window cutting, creasing, hole-punching, and stapling. All these processes can be easily programmed, ensuring that the user just has to feed in the prints manually with the rest being automatic. With its in-built touchscreen control panel, the user can pre-define each project and save it for later use. The machine also has the unique feature of providing V-shape hole-punching and step-binding for a complete LayFlat opening. Moreover, since the VS 700 B can perform multiple operations on a single sheet in a single run, it can be used for creating fold covers, panel card fold covers, and table standees, which can be used as calendars, menu cards etc..

Details

The VS 700 B has a digital microcontroller with a large LCD touchscreen, having the ability to pre-define and save projects for future use. It can hold up to 99 programs in memory, including precise details for window-cutting, creasing, and hole-punching measurements. This machine also offers the patented V-shape LayFlat binding technology. Two binding options are offered i.e. window-cutting and creasing, with hole-punching and stapling. It can create up to 6 windows or creases per sheet in a single run and can perform multiple operations in a single run for creating fold covers and table standees. The VS 700 B combines the processes of window-cutting, hole-punching, and stapling with utmost precision done in a single window.

Specifications

Paper Width
381 mm – 510 mm
(15 inches – 20 inches)

Paper Length
330 mm x 482 mm (13 inches – 19 inches)

Paper Thickness
0.15 mm – 0.30 mm

Synthetic Paper Thickness
0.125 mm – 0.175 mm

Speed
700 sheets per hour

Air Compressor
Pneumatic connection required

Power Supply
220V 50 HZ

Max. Power Consumption
250W

Machine Dimension
1422 mm (L) X 1168 mm (W)
X 1422 mm (H)

Weight (approx.)
225 kg

Key Features

- Digital Microcontroller with a large LCD touch screen to pre defines & save each project;
- Innovative patented technology of "V" shape LayFlat binding;
- Two binding options are available window cutting & creasing, with hole punching & stapling;
- 99 programs can be stored with precise memory of window cutting, creasing & hole punching measurement;
- Performs multiple operations in a single run to create fold covers and table standees, creates up to 6 windows or crease per sheet in a single run;
- Combine the process of window cutting, hole punching and stapling process with utmost precision, done in a single window;
